- c. The Terms supersede any of Subscriber's terms and conditions unless specifically agreed by Trimble in writing.
- d. Ownership or possession of an OmniSTAR-capable receiver does not guarantee any rights or access to the OmniSTAR Data Services. Subscriber shall immediately notify Trimble if a receiver for which a subscription has been activated is sold or decommissioned. It is understood that a subscription cannot be transferred to a different receiver without Trimble’s prior consent.
- e. Trimble reserves the right to discontinue, cancel, refuse or terminate service without prior notice if Trimble reasonably determines that the Subscriber is in breach of these Terms.

Neither Trimble nor its Licensors accepts liability for the unavailability or inaccuracy of the data for whatever reason.
- l. OmniSTAR Data Services may be interrupted, or the validity of the data changed, by local conditions such as blockage by trees and buildings or radio interference.
- m. Published system accuracies are dependent on the Subscriber's GNSS receiver and Subscriber's location.
- n. The OmniSTAR Data Services coverage is approximate, and Subscribers intending to operate on the extremes of the published coverage area are advised to verify the anticipated OmniSTAR Data Services performance with Trimble prior to purchase.

- o. Subscriber acknowledges that Trimble is not responsible for the operation or failure of operation of Global Navigation Satellite System (“GNSS”) satellites or the availability of GNSS satellite signals. The Global Positioning System (GPS) is operated by the United States Department of Defense, which is solely responsible for the accuracy, daily operation, and maintenance of the satellite constellation.
